Summary

I'm a Web Developer dedicated to create fast, visually engaging, and intuitive websites. I specialize in using latest technologies such as React.js, Next.js, and TypeScript to create smooth, dynamic user experiences. I also have experience with AJAX, Node.js, and RESTful API integration, which guarantees a smooth and effective data flow and user interaction. Constantly exploring the latest trends and tools in web development, I stay ahead of the curve, delivering solutions that are not only efficient but also aligned with the latest industry standards.

Experience

Pixel Bowl Studio
QA Analyst

Bucharest, Romania
02/2024   Present

Managed complex IT projects with a focus on timing, functionality, and cost efficiency.

• My role involved collaborating closely with developers to identify and resolve issues, enhancing game stability and user satisfaction.
• Through detailed manual testing, I was able to uncover and address critical bugs, enhancing the overall quality and user experience of the games.
• With careful attention to detail during manual testing, I ensured all game features worked correctly and met high standards.

Education

Informal School of IT
Programming Certificate   Frontend Development

Bucharest, Romania

Strengths

Creative Problem Solving

Skilled in creative problem-solving, I approach challenges with innovative solutions and fresh perspectives.

Eager to learn

Always eager to learn, I continuously seek new knowledge and skills to stay ahead.

Efficient collaboration

Strong collaborator, I work effectively with teams to achieve shared goals and drive success.
